## About

# Project Juice

Project Juice began as our personal “project” to energize our bodies with superior nutrition. Our interest in cold-pressed juicing and elevating the quality of our food began by necessity, from our own struggles with food allergies and sensitivities. Our interest quickly became a passion after experiencing the undeniable benefits of consuming an organic diet, rooted in clean food and powerful cold-pressed juices.

Today, Project Juice helps thousands live their best lives by developing and delivering the highest quality cold-pressed juice and clean food. We are the West Coast’s leading certified organic, non-GMO, cold-pressed juice and clean food company.

**DRINK JUICE. EAT CLEAN.  
Feel Awesome.**
